BMA CALLS FOR DELAY IN ROLL-OUT OF PATIENT DATA SHARING PROGRAMME (GDPR) FOR ENGLAND

Today the BMA issued a [press release](#) calling on NHS Digital and the Government to delay the introduction of its new data extraction programme until patients and the public have had time to be aware of and understand it and are better able to choose to opt-out if they wish.

On the current timescale, patients have until 23 June to opt-out of their coded health data being extracted from GP systems by NHS Digital through daily extracts from 1 July, replacing the current GPES arrangements for planning and research purposes. Patients can continue to register Type-1 opt outs at any given point in time after this, however once the first extraction has commenced, this will not erase any data held by NHS Digital that has already been shared. We have met with NHS Digital to express our concern that this timeline is far too short and that they have not yet transparently and actively engaged the public in increasing awareness of the GDPR (General Practice

Data for Planning and Research) programme since its announcement in early May. Just last week we wrote a joint letter with the RCGP to NHS Digital urging for improved communication with the public.

In a press statement BMA GP committee executive team member and IT lead Dr Farah Jameel said, “Everyone deserves to know what happens to their healthcare data, and throughout our discussions with NHS Digital about this programme, we have stressed the importance of clear communication with the public. People need to fully understand what this programme means and crucially, how to opt-out of their data being shared, if this is what they want to do. However, recent weeks have shown that communication from NHS Digital to the public has been completely inadequate, causing confusion for patients and GPs alike. Family doctors have a duty to their patients, and have their best interest at heart – so are understandably hesitant to comply with something that patients may know nothing about and that they themselves do not fully understand, even if this is a legal requirement.

With less than four weeks until the programme gets fully underway it’s clear that the timeline needs a hard reset. NHS Digital and the Government must postpone the date of the first ‘extraction’ of data – scheduled for 1st July – until such time as the public are in full possession of the facts and are able to make a fully informed decision about what happens to their data. Unclear messaging and a complete failure to develop a wide ranging and far-reaching public engagement plan to communicate with the population, has resulted in a completely unrealistic expectation that GPs are left to communicate these complex changes. Rushing through such fundamental changes to confidential healthcare data, losing the confidence of the public and the profession, will severely undermine the programme and threaten any potential benefits it can bring to healthcare planning and research.

Drawing insights from health-related data is vital for health service planning, and is a crucial way to monitor public health, organise local services and look at population-level health needs. Whilst the BMA has been engaged during the development of this programme, their emphasis has always been on advocating on behalf of the profession and patients. The BMA will continue to hold NHS Digital to account, to ensure that there are appropriate safeguards in place as to how the data collected is used, and that the views of the profession are represented in all discussions pertaining to patient data.” The full statement can be found [here](#).

NEW PCSE GP PAY AND PENSIONS PORTAL

Over the weekend, ahead of the 1 June launch of the new GP pay and pensions system, many GPs received automated emails from PCSE informing them that they had been given full access to the system. The emails gave access rights based on the recipient being a GP principal, a salaried GP, a locum and a portfolio GP. Unsurprisingly this created a lot of unnecessary confusion.

PCSE later sent an email to those recipients explaining that the allocation to all roles was to ensure that GPs can access all aspects of the new service, including historic pensions data. They added that the receipt of these emails did not mean that their status on the performers list had been changed.

Whilst the clarification was helpful, GPC were not informed of PCSE's plan to send these emails. It has also become apparent that there are many GPs who have not yet received these emails. PCSE has told us that these GPs will receive a single email, in place of the four, by the end of this week.

GPs and practices should log on and confirm they have access to the system. The new system should give access to data that many GPs have not seen before. Navigating the system and becoming familiar with terminology is a challenge and some areas of the portal will only be relevant to certain types of GP.

[Read the user guides and other resources for the new system here.](#)

We expect there to be data gaps and PCSE say it has additional resources to meet the anticipated demand. Any issues should be [raised with PCSE](#). Your pension data must be correct and complete, so do log on and check. The BMA will be monitoring both the pension and practice payment aspects very closely.

DEADLINE APPROACHING FOR EU SETTLEMENT SCHEME

The deadline of 30 June for applications to be made to the EUSS (EU settlement scheme) is rapidly approaching. If you are a doctor currently in the UK and arrived before 31 December 2020, you must apply before that date. It is free of charge, and by applying and being granted pre-settled or settled status, you will secure your rights to continue living and working in the UK. In addition, an application must be made for every eligible child within your family. If you and your family members have lived in the UK for many years, have a permanent residence document or EEA biometric residence card, you still need to apply to the EUSS (or apply for British citizenship) by 30 June to secure your existing rights in the UK.

[Check your immigration status here.](#)

[Apply now](#)

NHS CERVICAL SCREENING MANAGEMENT SYSTEM TO BE INTRODUCED ON 30 OCTOBER

NHS Digital has been commissioned by NHSX to develop and implement a new IT system, which they say will be simpler and easier to use. It will replace the current call/recall IT system for cervical screening, which sits on the National Health Application and Infrastructure Services platform. As a first step in the transition to the new system, NHS Digital will be working closely with local IT teams and registration authorities for providers to ensure readiness. We will keep you updated on developments.

MASK EXEMPTIONS FOR AIRLINE PASSENGERS IN RELATION TO COVID-19

We have received some reports of airlines asking for medical evidence to support mask exemptions for passengers. Our response to these requests is that Government guidance clearly states that there is no requirement to have written evidence for an exemption for face covering rules and that people do not need to ask for proof from a doctor.

SPIROMETRY

NHS England have suggested that spirometry services should be restored. [This guidance document](#) comprises information from the Association for Respiratory Technology and Physiology (ARTP) and the Primary Care Respiratory Society (PCRS). It was developed from a task and finish group established by NHS England's Clinical Policy.

The BMA guidance for [spirometry in general practice](#) remains unchanged. We believe this important diagnostic and monitoring tool should be properly commissioned and sufficient capacity should be made available for practices to be able to access this for their patients. NHS commissioners in many areas are failing to make this service fully available and must do more to support accurate diagnosis of both asthma and COPD. There is no contractual obligation for practices to do this themselves, and with the current infection protection and control restrictions still in place it is not practical for most practices to set aside treatment rooms to be able to complete this.

MENTAL HEALTH AND WELLBEING SUPPORT

Wellbeing

We are fortunate to have excellent mental health support in place for general practice locally across both our counties. Do please access support if you need

it and remember that it is very hard to look after others if you are not looking after yourself! The latest support available can be found on our [website](#).

There is help and assistance available within the Herefordshire and Worcestershire Healthy Minds service. They are able to provide bespoke talking therapies for all colleagues irrespective of your role in your organisations to assist with anxiety, low mood, stress and other common mental health problems. Referral is easy and can be completed via visiting <https://www.healthyminds.whct.nhs.uk/>. This is a NHS service and as such is free at the point of contact and confidential.

The Service Manager, Phill Morgan Henshaw is happy to answer any questions regarding referral and treatment and can be contacted on 01432 842200 or via phill.morganhenshaw@nhs.net.

Mentor Support

Please find a flyer highlighting how you can access peer support during this time [here](#). More information about [wellbeing](#) support can be found on the LMC website.

BMA Mental Health and Wellbeing

The BMA continues to offer [wellbeing services](#) and confidential 24/7 counselling and peer support for all doctors and medical students, as well as their partners and dependents, on 0330 123 1245. Access the [BMA's COVID-19 wellbeing pages here](#).

The BMA has welcomed the NHSE/I [announcement](#) of further funding for the expanded and rapid access provision of mental health services for NHS staff in England over the winter. This is urgently required and something the BMA has been calling for to support the major challenges NHS staff are facing. At the ARM, a motion was passed expressing concern at the potential long-term impact of the pandemic and called for resources to support the profession. As we head into a second wave of the virus it is vital that staff are protected. [Find out more here](#).

LMC WEBSITE

The following guidance has been added to the LMC website www.worcslmc.co.uk this week:
