

GP Opportunities with Vertis Health

Looking for flexible, rewarding GP work in Worcestershire? Worcestershire PCU services and our Community Hospitals Out of Hours service offer a range of opportunities for GPs seeking bank and locum sessions across urgent primary care and community settings.

Our Primary Care Units provide same-day assessment and treatment for patients who would otherwise attend the Emergency Department, allowing GPs to utilise and develop their urgent care skills across a diverse patient population in a supportive clinical setting. Community Hospital Out of Hours sessions offer the opportunity to provide clinical support to inpatients, including frailty, rehabilitation, palliative care and sub-acute medicine, with direct access to experienced nursing teams and established clinical pathways.

We offer flexible shift patterns, competitive rates, a welcoming clinical environment and the chance to make a real difference to local patient care. Whether you're looking to supplement your existing role, reduce portfolio career pressures, or maintain clinical variety, we'd love to hear from you.

For further information or an informal discussion, please contact the team to learn more about current opportunities across Worcestershire.
